**Skin:** Remove contaminated clothing and shoes. Flush skin with plenty of water for several minutes. Use soap if available. Get medical attention if irritation or rash occurs. Launder clothing before re-use.

**Inhalation:** Remove victim to fresh air. Get medical attention if irritation persists.

**Ingestion:** Rinse mouth with a small amount of water. Do not induce vomiting unless directed to do so by a medical professional. Get medical attention if you feel unwell.

**Most Important Symptoms:** May cause moderate eye and skin irritation. May cause skin sensitization. Inhalation of mists or vapors may cause moderate respiratory irritation. This product contains Butyl glycidyl ether which is suspected of causing genetic defects and cancer.
**Indication of immediate medical attention/special treatment:** Immediate medical attention should not be required.

### 5. FIRE-FIGHTING MEASURES

**Suitable (and Unsuitable) Extinguishing Media:** Use water spray or fog, dry chemical, foam, or carbon dioxide.

**Specific Hazards Arising from the Chemical:** This product is a combustible liquid. Thermal decomposition may release carbon monoxide, carbon dioxide, aldehydes, and irritating smoke.

**Special Protective Equipment and Precautions for Fire-Fighters:** Firefighters should wear positive pressure self-contained breathing apparatus and full protective clothing. Cool fire exposed containers with water spray.

### 6. ACCIDENTAL RELEASE MEASURES

**Personal Precautions, Protective Equipment, and Emergency Procedures:** Isolate the area and remove unprotected people. Remove all ignition sources such as open flames. Avoid contact with eyes, skin and clothing. Wear suitable protective clothing to prevent skin and eye contact. Avoid breathing mists or vapors. Ventilate the area.

**Methods and Materials for Containment and Cleaning Up:** Contain and collect using inert absorbent materials and place in appropriate containers for disposal. Keep out of sewers and waterways. Notify authorities of releases as required.

### 7. HANDLING AND STORAGE

**Precautions for Safe Handling:** Avoid contact with eyes, skin and clothing. Wear protective clothing and equipment. Avoid breathing mists or vapors. Use only with adequate ventilation. Wash thoroughly with soap and water after handling. Keep containers closed when not in use. Wash clothing before re-use. Keep product away from heat, flames and all other sources of ignition.

Do not reuse containers. Empty containers retain product residues which can be hazardous. Follow all SDS precautions when handling empty containers.

**Conditions for Safe Storage, Including Any Incompatibilities:** Store in a cool, dry, well-ventilated area away from oxidizers and other incompatible materials. Keep container tightly closed.

</tbody>
</table>

**Engineering Controls:** Use with adequate general or local exhaust ventilation to maintain exposure levels below the occupational exposure limits.

**Respiratory Protection:** In operations where exposure levels are excessive, an approved respirator with dust/mist cartridges or supplied air respirator should be used. Respirator selection and use should be based on contaminant type, form and concentration. Follow applicable regulations and good Industrial Hygiene practice.
Skin Protection: Chemical resistant gloves such as nitrile rubber or chloroprene rubber are recommended to prevent skin contact. Contact your glove supplier for assistance in selecting an appropriate glove.
Eye Protection: Wear chemical safety goggles if splashing is possible.
Other: Impervious coveralls, apron and boots is required to prevent skin contact and contamination of personal clothing.

### 11. TOXICOLOGICAL INFORMATION

#### HEALTH HAZARDS:

**Eye:** May cause moderate irritation with redness, tearing and pain.
**Skin:** May cause moderate irritation. May cause an allergic skin reaction (sensitization).
**Inhalation:** Inhalation of mists or vapors may cause moderate irritation of the nose, throat and respiratory tract.
**Ingestion:** Ingestion may irritate stomach and cause nausea, vomiting, and diarrhea.
**Chronic:** No data available.
**Sensitization:** This product is expected to cause sensitization.
**Carcinogenicity:** Butyl glycidyl ether was concluded by IARC that “there is limited evidence for the carcinogenicity of bisphenol A diglycidyl ether in experimental animals”. Its overall evaluation was Biphenol A diglycidyl ether is not classifiable as to its carcinogenicity to humans (Group 3). NTP nominated Butyl glycidyl ether for carcinogenicity based on structural features containing the strained oxirane ring structure. Many compounds containing the epoxy moiety have been shown to be carcinogens. None of the other components of this product greater than 0.1% are listed as a carcinogen or suspected carcinogen by IARC, NTP, and OSHA.
**Germ Cell Mutagenicity:** The mutagenicity of glycidol n-butyl ether (GBE) was evaluated in Salmonella tester strains TA1535 and TA1538 (Ames Test), both in the presence and absence of added metabolic activation by Aroclor-induced rat liver S9 fraction. Based on preliminary bacterial toxicity determinations, GBE, diluted with...
DMSO, was tested for mutagenicity at concentrations up to 2000 ug/plate using the plate incorporation method. GBE caused a positive response in bacterial tester strain TA1535 at 2000 ug/plate, both with and without metabolic activation, and in bacterial tester strain TA1538 at concentrations of 100 ug/plate and higher without activation and at 500 ug/plate and higher with activation. **Reproductive Toxicity:** Not expected to cause reproductive harm.

**Numerical Measures of Toxicity:** No data available for the mixture. The following are the toxicity values for the components:
- Epoxy Resin: Oral rat LD50: >2000 mg/kg, Skin rabbit LD50: >23,000 mg/kg
- Butyl glycidyl ether: Oral rat LD50: 2050 mg/kg, Skin rabbit LD50: 788-2520 mg/kg
